To Addl. S-S.

Please see the D.I & C's letter at pp 1-2 cf.

~~It is not known whether~~ The Electrical Engineer, Kollegal Panchayat Board will be able to look after this additional work besides his own duties as Panchayat Board Engineer and Engineer in charge of the electrical installations in the two Filatures. Since the D.I & C. has already instructed him to take up the work, the D.I & C. would have presumably considered this. The proposal of the D.I & C. at 'A' on pp 1-2 cf may therefore be accepted. Subject to orders, a draft order is submitted below for approval. It may be sent to P.W.D, Legal and Finance depts for acceptance. As per provision under para 256 (a) of the P.W.D. Code, the supervision and control of the work for undertaking the electrical installations departmentally is necessary. The Electrical Engineer, Kollegal Panchayat Board is entrusted for a part time basis on the terms specified under para 2 of G.O. No. 2421 MS Dev d 28.9.1943 and he cannot be considered to be under the control of the D.I & C. It is not known whether he will be able to attend to the maintenance of the Rearing Houses (which are independent of

LS 7/7/45

P. 9/7/45

Issued as G.O. no. 2684 (MS) Dated 10.7.45

(Continued from p15 of)

Finance (Accts.B).

The Electrical Engineer of the Kollegal Panchayat Board, who is also employed by this Govt. for supervising the operation and maintenance of the Transformer Substation etc. at the two Silk Filatures is paid an additional remuneration of Rs 30 p.m. which is one fifth of his grade pay. For the work entrusted to him in G.O 2684 Dev. dated 10-7-45 no extra payment has so far been proposed. The Director of Industries and Commerce has suggested that a small amount may be paid out of Rs 1300 provided for supervision, if and when he claims. Devt. ask this department to suggest the amount, if payment is considered necessary.

It is submitted that it seems very unlikely that the Electrical Engineer will do the extra work gratis. As regards the amount to be paid, it is for the Director to indicate what he considers suitable having regard to the amount of work involved. Devt. may be requested to consult the Director further (regarding the amount) ~~in the matter~~, as it is desirable to settle the question of remuneration as soon as possible.

The Electrical Engineer of the Panchayat Board who is in charge of the Govt. Substation has been provided with a staff of linemen and helpers. The electrification of the ~~Model~~ Grainage Rearing House and labour quarters will be undertaken by this staff under the supervision of the Electrical Engineer who is paid a remuneration of Rs 30 for charge of the Substation. No special remuneration need be fixed in advance as he is already paid a monthly remuneration for looking after the Govt. substation. It may be left to the Dr. of Industries to suggest a small remuneration after the work is finished, the case be put in a claim.
